

The 2026 National Disaster Resilience Conference (NDRC26) agenda is designed to advance the Federal Alliance for Safe Homes (FLASH) partnership's goal of delivering the ultimate American “DREAM” home, one that is durable, resilient, energy-efficient, affordable, and modern.

The agenda will feature breakout sessions, keynote presentations, panels, and spotlight interviews showcasing best practices in construction innovation, public policy, and private market programs from expert presenters spanning academia, elected officials, financial services, home builders, leaders, professionals, public officials, researchers, scientists, and other stakeholders committed to disaster resilience.

*This Antitrust Statement is to inform meeting participants that whenever competitors within an industry gather together, appropriate care must be taken to ensure that violations of antitrust laws do not take place. To avoid antitrust allegations, it is necessary to avoid discussions of sensitive topics. Agreements to engage in product boycotts, restrictive market allocations, refusal to deal with third parties, and price-restraining activities are automatically illegal under antitrust laws.*
